March 26
Saturday

© Rego Ostonen

Time to go bump in the night! Join us for our annual romp in the dark, and no, it won't be a full moon, in fact moonrise is during the event, so it really will be pretty dark.

And besides the dark, there's another reason things might not look familiar. This meet will be the debut of a new mapped section of Little Bennett Regional Park, mapped by course setter Sam Listwak using a LiDAR basemap. In the Night Meet, the Beginner, Intermediate and Short Advanced courses will use this map exclusively as will the White, Yellow, Orange and Brown courses for the Day Meet. The Night Long Advanced as well as the Day Green, Red and Blue courses will start on the new map then switch over to and end on the older Little Bennett map that the Club has used for years. Full details about the Night-O courses are below.

Registration, start and finish will be in the large parking lot off of Prescott Road; note that this is NOT accessed via the main park entrance.

Any youth or large groups attending, please contact the [Meet Director](#) [2] so that we can coordinate pre-registration for your group; the group registration and waiver [form](#) [3] is part of the information on our [Group Leaders](#) [4] page.

Updates:

- Advance registration is now available via our pop-up form [HERE](#) [5] until Saturday at noon.
- For this night event, please do not take dogs with you while you are out on your course
- The Golf course is OUT OF BOUNDS, so if you find yourself there, you might want to take a better look at your map
- None of the courses cross Clarksburg Road or even have it as a valid route choice.
