**November 30
Saturday**

Update: This event is filled to

capacity, in other words, SOLD OUT. This is an unusual event ... it's both an expedition to assess a new venue and a Score-O, set in a park so new that it lacks facilities like parking lots or restrooms, and using a basemap that has been quite minimally fieldchecked. For safety reasons as well as permitting limitations, participation in this event will be limited to at most 40 QOC members with advanced orienteering skills. Registration is now open closed. and the sign-up page is located at URL <https://www.eventbrite.com/event/9196921239> [2].
