**May 14
Sunday**

MTBO CANCELLATION: The odds are now deemed quite high that the trails will be too wet to responsibly ride on this Sunday. As a result, the MTBO portion of this event is cancelled. The foot/classic orienteering will take place.

Welcome back to Rosaryville State Park in Prince George’s County, the site of the 2015 Mid-Atlantic Championships! We have a full set of 7 courses from beginner to long advanced. as well as 3 mountain bike orienteering (MTBO) course options.

Rosaryville is relatively flat, but there are areas of good contour detail. It has a wide variety of vegetation, from large open fields to impenetrable forest. There is an elaborate trail network, and the park is widely known as a trail biking destination.

The courses for runners (and walkers) run the usual gamut from White (beginner) to Blue (long advanced). The climb is not significant. The forest mapped as white is open and runnable in many places. The mapped rootstocks have decayed, and some of them are completely invisible now. Those that remain are often dwarfed by new-fallen trees that are not mapped. Rootstocks are not used as control locations on these courses.

On Foot: Registration is from 10:30 to 1:15, and you must be off the course by 3:00 p.m. Please check in with the finish crew even if you did not complete your course. White, Yellow, Orange, and Brown courses will be printed at 1:7500. Green, Red, and Blue will be at 1:10000. Newcomers are welcome, and beginner instruction will be available at all times. An introduction to the course colors and difficulties can be found on our home page, and our volunteers can help you select an appropriate course if you are unsure.

Location

Rosaryville State Park, Pavilion parking area, Rosaryville, MD (Classic)

Registration
