

Event Crew Documents & Forms

Everything You Need to Know to Run a QOC Event

We'd like to make it as easy as possible for all our volunteers to know what to do and to enjoy our tradition of running friendly, well-organized events. The following documents include guidelines and tips we encourage our volunteers to read and understand in advance.

- [Event Director Handbook \(Sept 2024\)](#) [1]: the most inclusive guide to directing an event and it includes the Registration Crew Handbook and the Beginner Instruction Guidelines
- [Course Setter Admin. Guidelines \(Sept. 2023\)](#) [2]: what the course setter needs to know about the administrative aspects of setting courses for a QOC event
- [Condes User Guides](#) [3]: This is the site to head to for guides to using Condes, the program most often used by QOC course setters.
- [Beginner Instruction Guidelines \(April 2017\)](#) [4]: an individual document so that volunteer instructors can get just what they need
- [Volunteer Schedule Template \(2024\)](#) [5]: Excel spreadsheet to help event directors keep track of which volunteer is scheduled to do what & when
- [QOC Safety Plan \(March 2024\)](#) [6]: Guidelines including first aid and search
- [QOC Accounting Spreadsheet](#) [7]: Excel workbook with embedded macros to use for event accounting (updated June 2019)
- **IOF Guidelines for Course Planning**: these docs are written for planning large events, but they have many examples and principles that apply just as well to course setting high-quality local events:
 - [IOF Guide to setting Classic \(Forest\) courses](#) [8]
 - [IOF Guide to setting Sprint courses](#) [9]
 - [Swedish MTBO Course Setting Handbook](#) [10]
