Location Details

Classic Take exit 160B off of I-95 onto Route 123 north, follow 123 north 1.5 miles to park entrance on right. As an alternative, from exit 163 make a left at the new traffic light onto Workhouse Road, and then go left at the next two traffic lights. Be aware that I-95 heading south after ~11am on Saturday mornings is when the express lanes reverse, usually causing a back up starting at Route 123; avoid using I-95 between exits 160 - 163 on a weekend afternoon if you can.
