

PWF Pine Grove NRE

[ShareThis](#) [1]

November 10
Sunday

Pre-registration is required for this event and is now open. Registration will close at 12 noon on Saturday Nov. 9. There will be no day-of registration.

Welcome to day 2 of QOC's Night and Day O'Fest at Prince William Forest. Enjoy the beautiful fall woods of Prince William Forest near Pine Grove at this Classic/National Ranking Event (NRE)! (For information common to both weekend events, check out [this website](#) [2]; for Saturday NightO - or should we say Saturnight? - event details, head [here](#) [3].)

Embargo Area: Because this is a national ranking event, prior to the event competitors are prohibited from entering the area shown on [this map](#) [4] (which is defined as the park boundary on the East and South; by Liming Ln to Scenic Dr. Loop to Turkey Run Ridge Campground on the West; and by a line due East of Turkey Run Ridge Campground on the North). The road from the Park Main Entrance to Pine Grove arena/parking and to Turkey Run Ridge Campground/Arena is permissible to travel through the embargo area, remaining on the road. Shadowing of youth racers is only permitted after the adult completes their race; following a youngster on their course (which is permitted) is still a disqualifying violation of embargo if done before the adult races.

Map History: Pine Grove and nearby areas of Prince William Forest have been used for orienteering by QOC for decades. It's still a favorite for many. The terrain is classic ridge and valley terrain with mostly open forest and some areas of significant deadfall. Remapped by Jon Torrance 2021/2022, updated early 2023 by Nadim Ahmed. Used for 3/12/2023 NRE (RouteGadget links listed below in Model Map info.)

Entrance Fees: You are required to pay an entrance fee in order to access Prince William Forest Park; **cash is no longer accepted**. Entrance fees and passes can be purchased with credit/debit card, mobile payment app, or online through [recreation.gov](#) [5].

Parking will be at Williams Ball Field. Just follow QOC signage from the park entrance and look for volunteers in road guard vests.

SI Air+ Information: The punch boxes at controls will be SI Air+ enabled (so SIAC dibbers can be used), however the START and FINISH must be direct-punched.

Model Maps? Not in printed form! But feel free to check out previous course maps from here in our [RouteGadget](#) [6] app, such as those held on [12mar2023](#) [7], [2dec2018](#) [8], or [29oct2017](#) [9], among others.

Groups incl JROTC: adult and/or youth groups of up to 4 (max) may orienteer only on the White, Yellow or Orange courses, and they will be considered recreational (i.e. will not earn ranking points). We encourage JROTC cadets to register individually, but if planning to orienteer together, each such group must register (as a group).

Course stats and full course & map comments are now posted below.

[\[10\] Volunteer: Sign up for a volunteer slot via this form \[10\], or email the Event Director \[11\] directly for other options.](#)

[Additional Information:](#)

- [Dogs are not permitted at this event.](#)
